STEP 1
In the Home close to Wi-Fi Router:
1. Remove mounting bracket from back of DCM. FIG.A,
2. Follow the on-screen menus to create an account and
3. Access to 110VAC outlet within 5 feet.

STEP 2
In the Home close to Wi-Fi Router:
Download the Aladdin Connect™ app. 
1. Scan the QR code below or visit  your devices app store
2. Keep remote away from children.
3. Complete the Wi-Fi signal strength.

STEP 3
In the Garage:
These Factors must be determined prior to mounting Aladdin Connect™
1. Optimal Wi-Fi signal strength.
2. DCM location.
3. Access to 110VAC outlet within 5 feet.

NOTE: Customers using control apps from other vendors and NOT
using the Aladdin Connect™ app to control this system will need to visit
**STEP 4**
*Wire Aladdin Connect™: (Single door install shown)*

Aladdin Connect™ will wire directly to the wall control connections at the powerhead or directly to the wall control. New Genie models shown. Visit www.GenieCompany.com/AladdinConnect for more information on older models and other brands of garage door openers.

1. Make sure garage door opener is unplugged.
   - Leave wire spool intact for this part of the install.
2. Split provided dual strand wire approximately 2 in. then strip 1/2 in. of insulation.
   - FIG. A.
3. Press orange tabs down and insert both wires into connection points for DOOR 1 on the back of the DCM. FIG. B.
4. Trim and split the other end of the dual strand wire approximately 2 in. and then strip 1/2 in. of insulation. FIG. A.
5. Insert wire into wall control inputs either:
   - **OPTION A** Directly to the garage door opener.
   - OR
   - **OPTION B** To the Back of the wall control.

**NOTE:**
LEDs on DCM will flash momentarily as it reacquires signals.

**STEP 5**
*Mount and Power Aladdin Connect™:*

1. Using the DCM mounting bracket as a template at the optimal Wi-Fi location, mark and drill 2-3/32” pilot holes and mount bracket to wall using supplied screws. If mounting to drywall, use anchors provided in kit or if mounting to perforated angle at opener location, use nuts, washers and screws provided.
2. Plug Power Pack into wall outlet. An extended screw is provided.
   - FIG. 1.
3. Press orange tabs down and insert both wires into connection points for DOOR 1 on the back of the DCM. FIG. B.
4. Trim and split the other end of the dual strand wire approximately 2 in. and then strip 1/2 in. of insulation. FIG. A.
5. Insert wire into wall control inputs either:
   - **OPTION A** Directly to the garage door opener.
   - OR
   - **OPTION B** To the Back of the wall control.

**NOTE:**
LEDs on DCM will flash momentarily as it reacquires signals.

**STEP 6**
*Mount DPS Module to Garage Door:*

1. Restore power to the garage door opener.
2. Follow the on screen prompts to complete the set-up and test the Aladdin Connect™ system.
   - **NOTE:** This kit includes one DPS for use with one garage door only. The DPS included is already programmed to the DCM. Additional sensors can be purchased separately from your local Genie retailer. To program additional sensors, first complete **STEP 7** initial setups and programming, then go to “Add a Door Sensor” under the “Doors” tab inside the app or view the installation video at www.GenieCompany.com/AladdinConnect/InstallationVideo.
3. Pre-drill 2 - 3/32 holes. DO NOT drill all the way through door.
4. Use included self tapping screws to mount DPS bracket to top door panel end-stile.
5. Slide DPS down onto mounting bracket. DPS should snap onto bracket.

**NOTE:** The DPS included with this kit is already programmed to the DCM. See the **NOTE** under **STEP 7** regarding additional sensors (DPS).

**STEP 7**
*Complete the Programming:*

1. Restore power to the garage door opener.
2. Follow the on screen prompts to complete the set-up and test the Aladdin Connect™ system.
   - **NOTE:** This kit includes one DPS for use with one garage door only. The DPS included is already programmed to the DCM. Additional sensors can be purchased separately from your local Genie retailer. To program additional sensors, first complete **STEP 7** initial setups and programming, then go to “Add a Door Sensor” under the “Doors” tab inside the app or view the installation video at www.GenieCompany.com/AladdinConnect/InstallationVideo.
3. Press in on orange tabs to insert wire into terminals 1 & 4 along with existing wall control wires.

**NOTE:** Wires from Wall Control to Garage Door Opener ARE polarity sensitive. Be sure to reattach to the proper terminal should they become detached. Wall control should light when wired correctly.

**Features:**
If the garage door opener is operated by any means, the Genie Aladdin Connect™ app will send an alert to your device indicating the status of the garage door. A log is also created to indicate when the door was operated and by what means. Visit www.GenieCompany.com/AladdinConnect for more information.

**STOP**
DO NOT RETURN PRODUCT TO STORE.
