Division: Genie
Product Family: Residential Openers
Product Series: Pro Max[®] 500 & Stealth[®] GPS1200
To: All Genie Professional Line Wholesalers, Dealers and Installers
Re: Product Transition Notification #2

As a follow-up to PIB #2002 (dated 2/16/11), the Genie Company is in the process of discontinuation of the Pro Max[®] 500 (PMX500) and the Stealth[®] GPS1200 openers from its offering. The discontinuation will include the Pro Max[®] 500 (Part #35072S) and the Stealth[®] GPS1200 (Part #35073R) openers along with the following rails:

7' TR (Part #35063R)	8' TR (Part #35064R)	10' CC (Part #35067R)
7' CC (Part #35065R)	8' CC (Part #35066R)	10' BC (Part #35071R)
7' BC (Part #35069R)	8' BC (Part #35070R)	12' BC (Part #35068R)

It has been determined that current in-stock availability is less than 60 days. This projected timeline could vary depending on availability.

We have now completed an allocation strategy for all Customers on the products listed above. The allocation process will give all Customers the ability to balance out their existing rail inventories and any previous commitments. The allocation will vary by Customer channel. Please contact your Sales Representative or Wayne-Dalton Genie Sales Center for proper allocation availability.

We wish to take this opportunity to thank you for your business and continued support, especially during the transition to our exciting new line of Genie Professional Line openers.
