Part Number: P902-686

TriloG 1500 Showroom Display Graphic:
Part Number: P902-687

The display graphic for the IntelliG 1000 Garage Door Opener features the Genie Professional Line logo at the top left. The main title reads "INTELLIG™ 1000 GARAGE DOOR OPENER" with the tagline "Intelligent Design for Quiet yet Powerful Performance". A photograph of the blue and silver opener unit is shown on the left. To the right, a list of features is provided: "Enough power to open almost any residential garage door*", "Smooth and quiet DC motor, with a belt drive for the ultimate in quiet", and "Flexible drive options with belt or chain rails". Below this, a "CONVENIENCE OPTIONS" section highlights a "Three Button Remote" (described as sleek and compact with a low battery indicator) and a "Wireless Keypad" (described as a flip-up cover and lets you control up to three garage door openers). The keypad is shown in four color options: white, tan, grey, and black. A small inset image shows the keypad in its flip-up position. At the bottom, there is a small copyright notice: "©2011 The Genie Company, Inc. All Rights Reserved. All other trademarks and registered trademarks are the property of their respective owners. All other trademarks are the property of their respective owners." The graphic also includes several small icons representing various features like quiet operation, monitoring, and security.

(All graphics are similar to the above representation)
