Re: Carton Labeling: 3024/4024 IntelliG, 2564 GPower, 3064/4064 TriloG

---

Effective 09/01/13, the 3024/4024 IntelliG, the 2564 GPower, and the 3064/4064 TriloG cartons underwent a more simplified labeling process.

The "Series II Ready" label was replaced with a "BBU Ready" label on the 3024/4024 IntelliG and 3064/4064 TriloG cartons. For the 3024/4024 IntelliG, the 2564 GPower, and the 3064/4064 TriloG cartons, from this date forward, the only other label on the outside of the box would be the "Everyone Counts Sweepstakes" label (which will no longer be applied once the contest is over November 22, 2013).

Please note that, the only other stickers applied on the carton at the factory during production are the standard serial numbers sticker for each unit. These stickers are located near the part number and UPC information on the side of the box, the same as it was before.
