Re: New Product Release: 2-Button LED Flashlight Transmitter w/Lanyard

The Genie Company is pleased to announce the release of our 2-Button LED Flashlight Transmitter! Security & Convenience on the go! Perfect size for a purse, pocket or backpack. Starting September 18th, this product will be available for order from your source for Genie operator products!

This transmitters features:

- Features a powerful LED flashlight; stays on until the flashlight button is pressed again or for 4 minutes before automatically shutting off
 - Intellicode® Access Security System
 - Remote will transmit on both 315 and 390 MHz frequencies to help ensure operation despite interference from consumer electronics or nearby government bases
 - Bright lighting – tested at 30 lumens of light; throws light @ 50ft!
 - Remote buttons have an audible click and a tactile feel when the buttons of the remote are pressed. There is also a visible LED on the front of the remote to let you know when a button has been successfully pressed
 - Easy battery access (battery door with screw service part number: 39712R.S)
- 
- Part Number:** 39654R
Model Number: GL2T-BX
Description: 2 Button LED Flashlight Transmitter
- Includes a single AAA battery and a black lanyard for carrying convenience (AAA battery service part number: 36863A.S, lanyard service part number: 39597A.S)
 - Same programming process as other remotes
 - When programming the 2-Button LED Flashlight Transmitter to openers from the Intellicode era of Nov. 1995 to the end of 1997, use the top button
 - 18" Solid black lanyard with trigger snap clasp; clasp support tested up to 50lbs of force
