Date: August 1, 2017
Number: 11912
Division: Genie®
Product Family: Residential Opener Accessories
Product Series: Accessories (Aladdin Connect™)
To: All Genie Professional Line Wholesalers, Dealers and Installers
Re: Product Enhancement-Aladdin Connect-Virtual Keys, Rules, Notifications

The Genie Company is pleased to announce the release of **virtual keys, rules and notifications inside Aladdin Connect™**. This feature upgrade was sent as an over the air update to all current users and will be automatically available going forward when the app is downloaded.

Virtual Keys - Create a “virtual key” that provides temporary, recurring, or permanent access to relatives, friends, or service workers. Simply add their name and email to your list of users & what time length of access you want to give, and you're all set!

Recurring Access Schedules – invite a user that will have a limit on the times they can regularly access your home.

- Same times; regular access schedule
- Examples of use: daily dog walker from 8am-10am or a babysitter from 730am-530pm.

Temporary Access Schedules – invite a user for a temporary period of time that will expire.

- A single occurrence for access; not repeatable
- Examples of use: plumber, cable installer, garage door tech – specifically Thursday July 20th from 3pm-5pm.

REMINDER: Aladdin Connect allows multiple users to be setup with their own account information! This gives much more flexibility to the owner of the main account!

Time-Based Rules and Built in Notifications

Set your door to automatically close based on rules that you set that are time-based in nature. If you would like – turn on “Notify Me” to tell if and when your time-based rules were met or applied!

DURING TIME RANGE	
LONGER THAN DURATION	
OPERATED BY USER	
CRITERIA	

- Close the door if it is open between (time A) and (time B); notify me if this rule was applied
- Close the door if it is open longer than (X) duration of time; notify me if this rule was applied
- Just notify me (don't close door) if one of my rules has been met
- Just notify me if a specific 'recurring' or 'temporary' user has opened or closed my door
- Examples of use: you regularly leave the shed door open overnight by mistake. Tell Aladdin Connect - If my shed door is open between 10pm-6am, close it - *AND* - if you close it, send me a notification when my rule was applied
