Re: Residential Wall Mount Launch for Models 6070H & 6170H-B

The Genie Company is pleased to round out its residential opener portfolio with the launch of the Residential Wall Mount opener. The Residential Wall Mount openers include significant innovative features that set a new standard for residential wall mount openers in the industry.

- Patent pending Internal Slack Cable Detection pulses the motor for the initial start of door travel confirming that the door cable has tension before allowing closure of the door. Internal detection cannot be bypassed and eliminates the installation of external detection devices.
- The space saving design allows installation of the Wall Mount opener into applications with tight side room and consumes significantly less wall space.
- The Genie Wireless Wall Console also saves time by eliminating installation of wiring across the garage.
- Attractive LED Bluetooth® Light Fixture provides ambient lighting for entry and exit.

These and many other feature improvements will benefit Genie customers and homeowners.

Features:

	<ul style="list-style-type: none"> • Powerful, Quiet 24V DC Motor • Soft Start/Stop Control • Internal Slack Cable Detection (Patent Pending) • Wireless Wall Console • With or Without Integrated Aladdin Connect® • Power Door Lock • Bluetooth LED Light Fixture • Intellicode® 315/390 MHz Dual Frequency • HomeLink® and Car2U® Compatible • Capacity for 64 Total Remotes • Maximum Door Weight 850 lbs. Aladdin Connect Benefits:

- **Security** – Instantly know if someone is operating your garage door without permission.
- **Convenience** – Open your door for family members, deliveries or service providers from anywhere with your smart device or set up virtual keys so they can let themselves in. Other features include a scheduled time for your door to close or a maximum amount of time that it will stay open. Notification can be sent to you when closing occurs.
- **Tracking** – Know both the date and time of each operation of your garage door.
- **Smart Home Compatible** – Google Home, Amazon Alexa, and Yonomi.
