Re: New Product Launch –Light-Duty Commercial Jackshaft for Rolling Doors

The Genie Company has expanded the Light-Duty Commercial Jackshaft offering with its new operator for Rolling Doors. The GCL-LJ for Rolling Doors will cover live-shaft, dead-shaft, and shutter door applications. Plus, many commercial features standard to most of the Genie Commercial Line platform:

- Included open/close/stop 3-button control station
- Included commercial photo-eyes with adjustable mounting bracket
- Included programmable mid-stop to allow for partial door opening
- Included timer-to-close - able to be set between 15 seconds and 5 minutes at pre-defined values
- Included limit overrun to avoid nuisance edge reversals
- Stores up to 255 Optional – open/close/stop, one, two, three, or four button transmitters, wireless wall consoles, or keypads
- Toggle on-and-off the optional LED light with the 3-button control station
- Ability to use an optional 2-wire monitored sensing edges
- Operator force profile detects irregularities in operation of the door to identify unsafe door operation.
- Narrow 12" x 6.9" operator profile only requires 2.5" of headroom and 7" of side room
- Operational on up to 16ft high dead-shaft, up to 10ft high live-shaft, and up to 12ft shutters
- Optional Accessories, that can be added at any time, include battery backup, Aladdin Connect®, electric door lock, and LED light kit

Model Numbers: OPGLDJ0011RDS, OPGLDJ0011RLS, OPGLDJ0011RHS
