Re: New Product Launch – Countdown Timer Display

Introducing the new Genie Countdown Timer Display representing the very latest in providing commercial overhead door status to the customer with complete digital visual information of the door's pending movements. The Countdown Timer enhances traffic flow, helps reduce expensive door repairs, and improves safety by notifying drivers when the door will begin closing which reduces risk of the door closing on a vehicle. The countdown timer can be used with Genie Commercial Line standard or heavy-duty* operators.

Standard Features

- Timed Close adjustable from 1 second to 5 minutes
- Automatic timer close reset after power interruptions for security
- 4" tall LED status characters
- Adjustable mounting brackets on display
- Weatherproof display housing for exterior applications
- Countdown Timer supports two LED displays

Countdown Timer Part Numbers:

Part Number: OPAKGCTC.S	Description: Countdown Timer Controller and Display
Part Number: OPAKGCTD.S	Description: 2 nd Countdown Timer Display (Optional)

System Requirements

- A Genie standard or heavy-duty hoist, jackshaft, or trolley operator
