Re: New Product Launch – Light-Duty Commercial Jackshaft for Sectional Doors

The Genie Company is pleased to announce the newest addition to the Genie Commercial Line with the launch of the Light-Duty Commercial Jackshaft for Sectional Doors. The GCL-LJ is based on Genie's well-known Residential Wall Mount series, but with the addition of many commercial features standard to most of the Genie Commercial Line platform:

- Included open/close/stop 3-button control station
- Included commercial photo-eyes with adjustable mounting bracket
- Included programmable mid-stop to allow for partial door opening
- Included timer-to-close - able to be set between 15 seconds and 5 minutes at pre-defined values
- Included limit overrun to avoid nuisance edge reversals
- Stores up to 255 Optional - Open/Close/Stop, one, two, three, or four button transmitters, wireless wall consoles, or keypads
- Toggle on-and-off the optional LED light with the 3-button control station
- Ability to use an optional 2-wire monitored sensing edges
- Optional accessories, that can be added at any time, include battery backup, Aladdin Connect®, electric door lock, and LED light kit

The GCL-LJ for sectional doors not only includes the standard commercial features listed above, but still includes features made famous by our Residential Wall Mount series including:

- Genie's patented Safe-T-Pulse® internal slack cable detection
- Narrow 12" x 6.9" operator profile only requires 2.5" of headroom and 7" of side room
- Available on up to 14' high with up to 84" of high-lift, 18' ft wide, 180 sq ft total, and 850 lbs standard, high, or vertical lift doors

Model Number: OPGLDJ0011S
