Re: New Motor Control Board Part Numbers for IntelliG® Openers

---

Beginning on Tuesday February 7, 2012, a new motor control board part number was implemented in IntelliG opener products (DC Chain/Belt) with any serial number higher than 120384110953.

Various versions of this board (part number 37470Rx.x) are currently being used with the TriloG openers (DC Screw). This base board has now been commonized to support the IntelliG openers as well.

While the base board has been commonized, the software loaded on to the board is still what makes it the unique service part number for each model.

	Current Service Board Part Number	New Service Board Part Number
IntelliG® 1000	<del>36681R1.S</del>	37470R3.S
IntelliG® 1200	<del>36681R2.S</del>	37470R4.S
TriloG™ 1200	37470R1.S	37470R1.S
TriloG™ 1500	37470R2.S	37470R2.S

Part Number 36681R1.S for IntelliG 1000 has been replaced with 37470R3.S  
Part Number 36681R2.S for IntelliG 1200 has been replaced with 37470R4.S
