Re: New Product Release: Wireless Wall Console

The Genie Company is pleased to announce the release of our wireless wall console! An easy upsell that reduces installation time for dealers and gives the homeowner an updated look. This console will be standard inside the Wall Mount opener and available as an accessory for other openers. Starting June 24th, 2019, this product will be available for order from your source for Genie operator products!

This wall console features:

- Compatible with most Genie Intellicode® openers manufactured since 2013. Not compatible with Models 1022, 1024, 1042, 2022, 2024, 2027, 2042.
 - Absolutely no wiring required! Programs like a regular transmitter and can be used in conjunction with a wired wall console
 - "Jogger Button" (DELAY button) - press once to gain an extra 10 seconds to exit the garage before the door begins to move; press up to 3 times for a maximum of 30 seconds delay before door movement
 - Large DOOR button moves the door up and down
 - Pulsing optional backlight on the DOOR button makes the console easy to locate in a dark space; turn off for maximum battery life; turns red indicating low battery status
 - Turn the light of the opener on or off at any time by using the work LIGHT button on the console
- 
- Part Number:** 39902R
