FOR IMMEDIATE RELEASE

**The Genie® Company Introduces New Light-Duty Commercial Jackshaft**  
*Designed for Reliability and Loaded with Innovative Features*

**Mount Hope, OH** (SEPT 21, 2023) – The Genie Company, a leading manufacturer of smart, connected garage door openers and accessories for residential and commercial applications, is pleased to announce the newest member of the Light-Duty Commercial Operator offering, its [Light-Duty Commercial Jackshaft](#)(GCL-LJ) for Sectional Doors.

The GCL-LJ is based on the well-known and award-winning Genie residential wall mount series, and now includes many commercial features standard to most of the Genie Commercial Line platform like, open/close/stop 3-button control station, programmable mid-stop, and the timer-to-close functionality, to mention a few.

The GCL-LJ for sectional doors brings with it features from its residential predecessor like:

- Patented Safe-T-Pulse™ internal slack cable detection
- Sleek 12" x 6.9" operator profile only requires 2.5" of headroom and 7" of side room
- 7.5 in/second door speed in both directions in most applications
- Operational on doors up to 14' tall with up to 84" of high-lift, 18' ft wide, 180 sq ft total, and 850 lbs.
- Optional battery backup, easily added at time of purchase or later

The GCL-LJ for sectional doors is designed for standard, high, and vertical-lift doors that have up to a 15-cycle/hour requirement. Additionally, the included Intellicode® receiver can store up to 255 transmitters.

"We're thrilled to launch this exciting new product," said Mike Kridel, President of The Genie Company. "The GCL-LJ with its compact and powerful design opens up many new applications that we can now support!"

This new model, GCL-LJ from The Genie Company is now available for purchase via our Genie Professional Line wholesalers and dealers. Be sure to look for the Light-Duty Trolley operator coming in the fall.
