**Product Family:** Residential Openers  
**Product Series:** Models 3120HL and 3120HL-B  
**To:** All Genie Professional Line Wholesalers, Dealers and Installers  
**Re:** New Product Launch – Models 3120HL & 3120HL-B with Integrated LED Lighting

---

The Genie Company is proud to introduce the Models 3120HL and 3120HL-B, 24V operators with Integrated LED Lighting! Benefits of Genie integrated LED lighting include energy efficient bright, aesthetically pleasing light that's maintenance-free, 25,000 hour rated and frequency tuned not to interfere with transmitter range like many other LED options.

Both Models come standard with Integrated Aladdin Connect Wi-Fi and smart phone control capabilities. The Model 3120HL-B comes with the Battery Backup unit already inside the box, while the 3120HL will be ready to accept the BBU later as an added accessory any time you or your customer sees fit.

Additionally, both operators offer all the same benefits as existing 3120H/3120H-B models, such as a standard 6' power supply and universal preassembled rails with a pre-tensioned chain or belt in sizes up to 10'. The new models also feature the same easy set-up and programming that is so popular across the entire Genie Residential Line-up.
