Number: 12947
Division: Genie®
Product Family: Commercial Operators
Product Series: GCL Standard Duty Operators
To: All Genie Professional Line Wholesalers, Dealers and Installers
Re: Discontinuation of GCL H, J, and T ½ HP No Brake Models

Including brakes in GCL H, J and T ½ HP models increases security of the door and reduces the possibility of a return call, which sometimes necessitates a brake retrofit kit be added to the operator. To improve quality for the end user and reduce warranty return calls for your business, all ½ HP GCL H, J and T standard duty models without brakes have been discontinued.

For any outstanding quotes dated prior to August 3, 2018 for no brake GCL H, J and T models please contact your plant customer service representative when placing orders. These models will be changed to the equivalent model with a brake.

Discontinued GCL Standard Duty ½ HP No Brake Models
