Re: New Product Launch – Commercial Wi-Fi

The Genie Company is pleased to announce the launching of the new commercial Wi-Fi board. The new Wi-Fi board can replace the existing control module on X-Series units. Units can be retrofitted in the field or added as an option to new operators. End users will now have access to the door status and have the ability to open or close the door from the Aladdin Connect® app while they are anywhere in world. Dealers will also have the ability to create digital business cards inside the Aladdin Connect® app giving their customers easy access to contact them for service.

Features & Benefits:

- **Aladdin Connect®** - Monitor and operate commercial doors from anywhere with Aladdin Connect app on a smart device
- Create rules to generate actions or alerts based on a doors position at certain time of day
- Backwards compatible with most X-Series operator models dating back to 2012. - Exclusions include Fire Door, NEMA4/4X, and Explosion Proof operators.
-X-Series Rev 1 Green control boards will require monitored safety devices to be installed
- Set up dealer virtual business cards inside Aladdin Connect app
- See usage history of each door and operator with who/what device initiated the command
- **Intellicode® receiver** - Included Intellicode receiver can hold up to 255 Intellicode remotes.

Part Number: OPAKDCM.S
