Re: Marked Fuses

PIB 7129 announced that fuses inside the operator electric box cover are now marked with specific colors to improve identification. Starting in production the week of November 10, 2014 (operator date code starting with 14314 and after), the fuses on the main board of the commercial operator have also been color coded for easy identification.

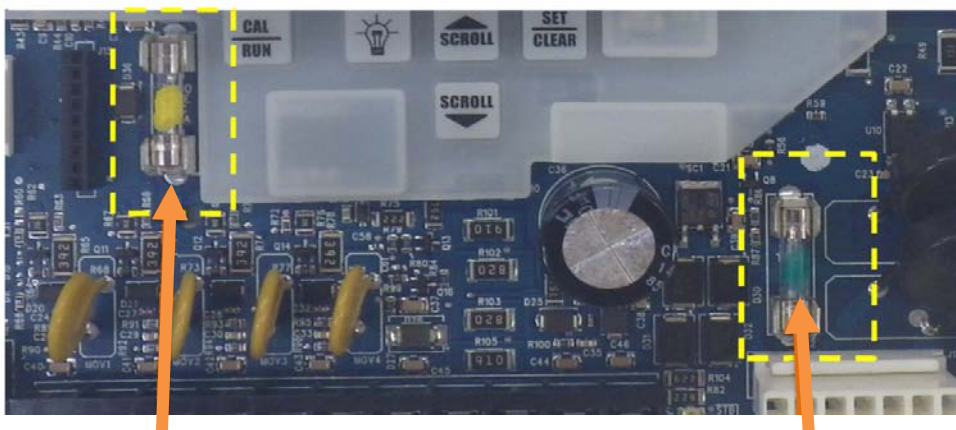

For the GCL-T, J, H, GT and GH, 1 and 3 Phase, ½, ¾, 1 and 3 HP units:

Position F3: Red Fuse

Position F1: White Fuse

For all GCL-GCX, MT, MJ and MH units:

Position F1: Yellow Fuse

Position F2: Green Fuse
