Re: New Product Launch—Models 3120H & 3120H-B with Integrated Aladdin Connect

The Genie Company is proud to introduce the Models 3120H and 3120H-B, 24V Battery Backup operators with Integrated Aladdin Connect! The Model 3120H-B comes with the Battery Backup unit already inside the box, while the 3120H will be ready to accept the BBU later as an added accessory any time you or your customer sees fit!

Both operators offer all of the same benefits as the 3020 models, such as a standard 6 ft. power supply and universal preassembled rails with a pre-tensioned chain or belt. The 3120 models also include integrated Aladdin Connect Wi-Fi and smart phone control capabilities.

This new model uses advanced chip technology which improves and simplifies the installation of the Wi-Fi and smartphone set-up. In most cases, setup of the Wi-Fi should take less than five minutes.

Aladdin Connect Benefits:

- **Security** – Instantly know if someone is operating your garage door without permission.
- **Convenience** – Open your door for family members, deliveries or service providers from anywhere with your smart device or set up virtual keys so they can let themselves in. Other features include a scheduled time for your door to close or a maximum amount of time that it will stay open.

- **Tracking** – Know both the date and time of each operation of your garage door.

This operator will be available to order from your Genie source as of January 29th, 2018.
