

## **PRODUCT INFORMATION BULLETIN**

**Date:** February 8, 2012  
**Number:** 3659  
**Division:** Genie®  
**Product Family:** Residential Openers  
**Product Series:** CM8600 AC Screw Drive  
**To:** All Genie® Professional Line Wholesalers, Dealers and Installers  
**Re:** Product Transition of CM8600 AC Screw Drive

---

The Genie Company would like to inform all customers that it will discontinue production of the CM8600 AC Screw Drive openers from its offering. The discontinuation will include the CM8600 AC Screw Drive opener (Part #31055RV) along with the following rails:

7' Screw Drive Rail (Part #00007120)  
8' Screw Drive Rail (Part #00007121)

This process will begin with a request that you take time to review your current on hand inventory for the rails being affected by this change. The overall transition is based on projected in-stock availability and is currently forecasted at approximately 60 days. While this projected timeline could vary depending on availability, we are committed to be certain that all customers have the opportunity to balance out their existing rail inventories. We would ask that you review your inventory in the next 2 – 3 weeks and contact your sales representative with your order to balance your inventory. There will be secondary PIB communication on additional orders for powerheads and rails related to the end of production.

The Genie Company will honor any applicable warranties with replacement parts, product or alternative product options for the CM8600 AC Screw Drive opener. Additional communication, instructions and updates will be included in future bulletins.

In addition, the Genie Company would like to introduce the up and coming AC Screw Drive unit, the **GPower™ 900**.

### **Key Features:**

- ½ HP AC Motor
- Opening speed up to 7.0\* in/sec
- 120 Watt Lighting System
- Rails are interchangeable with the TriloG™ rails up to and including 10' (500lbs)
- 3-Button Remote
- Wall Console with Light Control and Sure-Lock™
- Safe-T-Beam® System

More details on this new unit will be coming soon including launch kits, availability dates and pricing.

We wish to take this opportunity to thank you for your business and continued support. We look forward to discussing future opportunities and growth with our exciting new line of Genie® Professional Line openers. Should you have any questions, please contact your Genie® Sales Representative or Wayne-Dalton® Genie® Sales Center.
