To: All Genie Professional Line Wholesalers, Dealers and Installers  
Re: Gate Receiver Options

---

The Genie Company has two options for gate receivers.

Option one is the fixed receiver **part number 34564R**. This receiver is compatible with 9-switch trinary coded openers and will hold an unlimited number of fixed code remotes. The combination of this receiver and the new 3-button GenieMaster remote will allow you to open both the gate and also a Genie garage door opener with just one transmitter!

Option two is the rolling code receiver **part number 36359R** (now standard with the 3-button, auto-seek dual frequency remote shown below). This receiver and remote combination also allows you to open a gate and a Genie garage door opener using only one transmitter. This receiver will hold up to 7 Intellicode remotes and is also compatible with the GenieMaster remote.
