Division: Genie®  
Product Family: Residential Opener Accessories  
Product Series: Remotes  
To: All Genie Professional Line Wholesalers, Dealers and Installers  
Re: Product Discontinuation: 3-Btn "Bowtie" Remote, Model GTR-3, 37517S

---

The Genie Company would like to inform you that all inventory has been depleted of the Model GTR-3BX ("bowtie") remote part # 37517S and this item will now be moved to an obsolete status.

As referenced previously in PIB 051622 from earlier this year, please note the suggested replacement remote shown below. The new remote includes many preferred features such as a larger general size and larger buttons with better tactile feel - as well as including our patented dual frequency technology (315/390MHz). The new product is available now for order from your source for Genie products.

**Moves to OBSOLETE Status**  
***Inventory has been depleted***
