Re: Product Improvement: Safe-T-Beam® Dimple Removal for Ease of Use

---

The Genie Company is pleased to announce the implementation of a voice of customer request to remove the dimple on the Safe-T-Beam® (STB) brackets. This allows the STB brackets to be more easily removed from the photo eye plastics and reversed as needed to better fit certain applications.

There are no part number changes or pricing updates associated with this improvement. This is a running change that has been implemented in our supply chain already and will be seen in distribution over the next few months.

Part Number: 37220R

Model: GSTB-BX

Description: Safe-T-Beam® Kit

*PHASING-OUT*

UPDATED

Easily Remove and Reverse Bracket As Needed
